

Eco88(s) contains a balanced blend of **Poultry Manure Granules**, Granulated Sulphate of ammonia, Urea, DAP, **Sulphate of Potash** and **granular iron**. Incitec originally formulated ECO88 as an organic based version of CK88 but has evolved into a high quality organic based granular fertilizer

N : 10 P : 3 K : 8

The chemical content provides most of the nutrients in an available form.

The organic content provides additional nutrients and *a full range of trace elements* in a slow release form and also improves the soil quality by:

- * increasing water retention and aeration,
- * stimulating microbial and earthworm activity,
- * reduces leaching of nutrients from the soil.

The **addition of iron** assists in chlorophyll production and produces deep green lawns and foliage. Iron also assists in the colour of flowers

Analysis :

Nitrogen (N)	Ammonium Form	6.3%	Calcium (Ca)	as Poultry Manure	1.0%
Nitrogen (N)	as Urea	2.5%	Magnesium (Mg)	as Poultry Manure	0.19%
Nitrogen (N)	as Poultry Manure	1.2%	Iron (Fe)	as Poultry Manure	0.06%
Nitrogen (N)	Total	10%		as Oxide	1.02%
Phosphorous (P)	Water Soluble	2.6%		as Sulphate	0.42%
Phosphorous (P)	Citrate Soluble	0.4%	Iron (Fe) Total		1.5%
Phosphorous (P)	Citrate Insoluble	0.0%	Copper (Cu)	as Poultry Manure	34mg/kg
Phosphorous (P)	Total	3.0%	Zinc (Zn)	as Poultry Manure	200mg/kg
Potassium (K)	as Sulphate of Potash	7.4%	Boron (B)	as Poultry Manure	1mg/kg
Potassium (K)	as Poultry Manure	0.6%	Manganese (Mn)	as Poultry Manure	153mg/kg
Potassium (K)	Total	8.0%	Molybdenum (Mo)	as Poultry Manure	3.1mg/kg
Sulphur (S)	as Sulfate	8.36%	Biuret		0.081%
	As Poultry Manure	0.17%			
Sulphur(S) Total		8.53%			

Application Rate

Evenly apply 40 - 75 kg per 1000 square metres and water in well. Repeat every 12 - 18 weeks (3 - 4 times per year) or as necessary. Applications can be higher for poor soils.
