

Material Safety Data Sheet

Blood & Bone

UN No : None Allocated Class : None Allocated
Hazchem : None Allocated
Packaging GP : None Allocated
EPG : None Allocated Poisons Schedule : None Allocated

Not classified as hazardous according to the criteria of Worksafe Australia.

Identification:

This product contains a mixture of non-hazardous ingredients. The main components include compost, rock calcium phosphate, meat meal, and gypsum with traces of magnesium and copper salts.

Uses:

Natural organic fertilizer.

Physical Description/Properties:

Appearance: Light brown fine material. Low odour.

Solubility: Partly soluble in water.

Flashpoint: Not flammable

Health Hazard Information:

Health Effects:

No adverse health effects expected if the product is handled in accordance with this Safety Data Sheet and the product label. Symptoms that may arise if the product is mishandled are:

Acute effects:

Swallowed: Swallowing large amounts may result in nausea, vomiting, abdominal irritation and diarrhoea.

Eye: Fine dust may be an eye irritant.

Skin: Prolonged skin contact may cause irritation. Skin abrasions and sores may be aggravated by contact.

Inhaled: Inhalation of dust may result in respiratory irritation of the nose and throat and may cause coughing.

First Aid:

Swallowed: Rinse mouth with water. Give plenty of water to drink. Seek medical advice. If large amounts are ingested induce vomiting.

Eye: Irrigate with copious quantities of water for fifteen minutes. In all cases of eye contamination it is a sensible precaution to seek medical advice.

Skin: Wash contaminated skin with plenty of soap and water. Remove contaminated clothing and wash before re-use. If irritation occurs seek medical advice.

Inhaled: Remove victim from exposure. If irritation occurs and persists seek medical advice.

Advice to Doctor.

Treat symptomatically.

Precautions for Use:

Exposure Standards:

Exposure limits are unlikely to be reached under normal use.

Limits for constituents of this product are:

Constituent	Nuisance Dust
OSHA PEL	15 mg/m ³ (total dust)
ACGIH TLV	10 mg/m ³ (respirable)

Engineering Controls:

Avoid generating and inhaling dusts. Use in well ventilated area. Ensure air concentrations are below quoted Exposure Standards. Keep containers closed when not in use.

Personal Protection:

Avoid eye contact and repeated or prolonged skin contact. Wear gloves and wash hands and contaminated skin after handling. Avoid generating and inhaling dusts. If dust exists, wear dust respirator meeting the requirements of AS/NZS 1715/6. Always carry out good personal hygiene and wash hands before eating, drinking or using the toilet.

Flammability:

Non combustible material.

Safe handling information:

Storage and Transport:

Not defined as a Dangerous Good by the Australian Code for the Transport of Dangerous Goods by Rail and Road. Store in a cool dry place away from combustible materials, herbicides and fungicides. Avoid container breakage. Keep away from food or feed. Avoid contact with skin, eyes or clothing. Wash after handling. Keep out of reach of children.

Spills:

Wear protective equipment to prevent skin and eye contamination and inhalation of dust. Sweep up, but avoid generating dust. Collect and seal in properly labelled containers for reuse. Do not contaminate streams, rivers or water courses.

Fire/Explosion Hazards:

Not combustible.

Avoid extreme heat. On heating some materials may emit toxic fumes.

In the case of fire: Wear breathing apparatus when fighting a fire containing these materials. Extinguish with water / waterspray.

Environmental Impact:

Do not contaminate waterways. Will not bioaccumulate. This product may result in cadmium residues greater than the Maximum Residue Level in plant and animal products. These residues may accumulate in soils. Will degrade over time on contact with soil.
